CALL BEFORE YOU DIG

1-800-962-7962

IT'S THE LAW.

If you intend to excavate, you must first arrange to have the buried utilities located at your worksite BEFORE you dig.

New York State law, Industrial Code Rule 53, requires it.

Your safety and liability demand it.

To help simplify your responsibilities as an excavator, the Underground Facilities Protective Organization (UFPO) is here to help.

With one quick phone call to UFPO,

an excavator may contact several utilities with his stake-out request.

As a One Call Center, UFPO will relay your excavation to its member utilities, who will visit your worksite and mark or "clear" their buried utilities.

The service and phone call are absolutely free!

Remember these important facts:

✓ NYS Law requires at least 2 FULL working days notice.

✓ UFPO contacts its member utilities only. Code 53 mandates that excavators consult with the current Central Registry of the town, village or city to determine which other facility owners may be present. Any non member utilities must be contacted separately.

✓ To get more information on UFPO or a free copy of Code 53, call UFPO at 1-800-962-7962.
